

## Accelerated C++: Practical Programming by Example (Paperback)

By Andrew Koenig, Barbara E. Moo

Pearson Education (US), United States, 2000. Paperback. Book Condition: New. 232 x 186 mm. Language: English . Brand New Book. Want to learn how to program in C++ immediately? Want to start writing better, more powerful C++ programs today?

Accelerated C++'s uniquely modern approach will help you learn faster and more fluently than you ever believed possible. Based on the authors' intensive summer C++ courses at Stanford University, Accelerated C++ covers virtually every concept that most professional C++ programmers will ever use -- but it turns the traditional C++ curriculum upside down, starting with the high-level C++ data structures and algorithms that let you write robust programs immediately. Once you're getting results, Accelerated C++ takes you under the hood, introducing complex language features such as memory management in context, and explaining exactly how and when to use them. From start to finish, the book concentrates on solving problems, rather than learning language and library features for their own sake. The result: You'll be writing real-world programs in no time -- and outstanding code faster than you ever imagined.

### Reviews

*This is the finest book I have got study right up until now. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Keanu Johns**

*This is the finest book I have read until now. It is filled with wisdom and knowledge You can expect to like just how the author compose this ebook.*
