This book provides a step by step process on how to earn an income using a little known investment vehicle called a Binary Option, a recently developed investment instrument. This tool can offer the not so rich person an opportunity to make money on their own time from the comforts of their own home, or anywhere they have access to a computer and internet connection. The beauty of this system is that, unlike many work from home programs, there is no need to build a website, sell to your family and friends, pay for advertising, sell products, carry inventory, and all of the baggage that comes with other income opportunities. This is a simple trading system. After learning the process, the investor can make intelligent decisions on the price of an investment whereby they can earn anywhere from a potential 70 return and up on their money. Using the model built around a 1-minute time period, the investor has the potential to make quite a bit of money in a relatively short period of time. This item ships from La Vergne, TN. Paperback.
