Government Accountability Office, 2006 OCLC Number: (OCoLC)72710315 Subject: Disaster relief -- United States. Excerpt: . . . into the fraud prevention process to better handle future disasters and enhance existing fraud prevention and detection programs. Managers of federal disaster assistance programs face a dual challenge - Concluding delivering aid as quickly as possible while at the same time ensuring that Comments relief payments go only to those who are truly in need. To meet this dual challenge, managers must recognize that fraud prevention and the rapid distribution of assistance are not conflicting mandates; instead, both can be accomplished if effective controls are in place and operating as intended. Of the controls discussed today, fraud prevention controls are the most useful and cost-effective means of reducing the loss of money due to fraud, because payments, once out the door, have proven extremely difficult to recover. Implementing an effective system of fraud prevention controls including upfront controls, post payment detection and monitoring, and prosecuting those who have exploited control weaknesses are crucial to building the American taxpayers confidence that federal disaster assistance is given to those in need.
