Let ns study each point given under the four respective subheads, showing the necessity of careful observations and records: I. THE EGG. I. 1. Description. Note the importance of being able to recognize the differences between the eggs of such an insect as the Lady Beetle, and one such as the Colorado Potato Beetle, which may be present upon the same leaf, The former is beneficial, and the latteT injurious. Consequently, the one should be preserved and the other destroyed. Also for many insects, such as the Codling Moth and Hessian Fly, it is too late to attempt any remedies after...
