Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Brief Note: Do you need a smartphone? To answer this question, we should know why these phones are called smartphones. Smartphones are different from traditional phones in the features they offer. You no longer have to carry your laptop or sit the entire day in front of your desktop computer to perform all the tasks that you need to do. Smartphones enable us to do a lot of things with it, which is why they are called smartphones. Smartphones are smart because of the operating systems they carry. Smartphones can therefore do things more quickly than their standard mobile phone and PDA precursors. It is important to do some research before buying a phone. There are different features to consider. To ensure the phone has everything you need you could do some simple hands-on tests. Call quality could be tested by making a few test calls. Take note of static, tinny voices or any other interference. The phone design determines much of the phones usability and features. Test different designs in real-life before you make a choice, since...
