

A Treatise on Ore and Stone Mining

By Clement Le Neve Foster

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 280 pages. Dimensions: 9.6in. x 7.4in. x 0.8in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1905 Excerpt: . . . has a gauge of 610 mm. The two motors together are of 34 horse-power, the tension is 500 volts, and the velocity 12 kilometres per hour. The endless rope and the endless chain conveying single waggons at stated intervals are in favour, either for transporting the mineral to any spot, or for taking the waste to the tip. The former system is usual at the South African gold and diamond mines. An example may be seen at the De Beers diamond mine, where the gem-bearing rock has to be exposed to the action of the atmosphere for some months in order to make it crumble away and become ready for the process of washing. Large areas have to be covered with the blue, and cheap haulage is a matter of importance. The depositing floors commence at a point a mile from the mine, and extend for...
