Tate Publishing Enterprises, United States, 2012. Paperback. Book Condition: New. 211 x 132 mm. Language: English . Brand New Book ***** Print on Demand *****.For those Bible students who are ready to tackle the hardest questions, who fearlessly aim to compare biblical teachings to the physical sciences of our earth, Dr. Hulon Madeley has provided new perspectives. These include all the critical evidences now available to demonstrate that the personal, loving, and just God of the Bible is indeed the same one who manages our world and all of its processes in both the natural and spiritual realms. Most of the topics explored in this volume are never mentioned in Bible commentaries. Topics in this study include: -Both Biblical Accounts of Creations - The Concept of Deep Time and Its Importance -Life Development on Earth and its Relevance to Us -The Great Exodus Drama and Its Lessons -Specific Insight into the Four Gospels -A Careful New Look into John s Revelations and much, much more including a final chapter on personal applications. Dr. Hulon Madeley uses a balance of scientific explanation and scripture to compare the natural world to the biblical world, finding in science the very proof of the existence of God, Jesus, and the elements of the Earth that will so aggressively bring about the day of judgment! Gather your courage and prepare to find the most significant answers to life s most important mysteries in Seeing God Anew: A Fresh Perspective on Many Biblical Revelations.
